Dear Valued Customer,

We hope this email finds you well.

After carefully monitoring the ongoing supply chain challenges and analyzing the inflationary increases in material, labor, transport, and other input costs, effective April 3, 2023, all Evolv. Tan solutions will have a nominal price increase of only \$2 per bottle. This price increase will apply to Levels 1, 2 and 3, as well as Pre and Post solutions.

There will be no price increase on additives, retail, or equipment at this point. Some parts may receive a price adjustment.

Evolv. Tan is committed to providing our customers with the highest quality equipment, products, and solutions, all of which continue to be **Made in the U.S.A.** This price adjustment will enable us to stay true to our values and to continue to serve you for years to come.

Thank you for your loyalty and support. Please do not hesitate to reach out to [customercare@evolvtan.com](mailto:customercare@evolvtan.com) or to call us at (760) 891-0257 if you have any questions.

**Faraje Kharsa | CEO |**
